

Newsletter Summary

Four schools participated in the Art on the Move program for the fall of 2014. We have three schools participating in this program for the spring of 2015.

The pictures that the students created are phenomenal! The Art on the Move program helps students see original paintings, that inspire them to see art in a new way. Art plays such an important role in a child's life. You see extraordinary results when children are exposed to Art!

Go to the News and Events page to view some of this wonderful artwork!
